To Whom it May Concern:

I have commissioned two statues from Young Fine Arts Studio. One of them is a life sized statue of my father Bill Roderick Sr., which is installed at our Fashion Plaza shopping center. This statue was created as a memorial to my father and bears an uncanny resemblance to him. I continue to be amazed at the ability of Richard and Lena to capture my father's personality and character.

In fact, this statue won City Weekly's 2001 award for "Best Shopping Center Memorial". The statue has been in place for over three years and we continue to receive many positive comments and calls about it.

It is a pleasure to recommend Richard Young and Lena Toritch for any sculpture work you may have.

Sincerely,

William C. Roderick
